*Helping You Live...*  
**Your Exponential Life**

## AREAS OF EXPERTISE

### TAX SERVICES:

Tax services include planning, preparation, and tax consulting for high net worth individuals, corporations, partnership, trusts, and not-for-profit organizations. Our professionals work to anticipate impending problems, foresee potential opportunities, and develop effective solutions in time to realize their full benefits. We work with our customers closely to develop long-term tax strategies that will support their goals and place them in the most advantageous position for future growth.

### ENTREPRENEURIAL BUSINESS SERVICES:

Entrepreneurial business services (EBS) provide accounting and advisory services to closely held and growth-oriented companies. Our EBS team provides guidance to help businesses grow profitably through utilizing financial performance reporting and analyses. For busy executives and high net worth individuals, we provide private and personal accounting services. Our concierge services include bill paying and record keeping, budgeting and cash flow management, coordinating with other advisors and vendors, and expense tracking. Our team has the expertise and experience to tailor our services to suit your specific needs.

**AUDITS:**

Audits provide assurance of an organization's financial performance and reporting and provide a basis for management to make informed decisions helpful to business owners seeking funding, exit strategies, and expansion. We also provide internal control consulting that includes evaluating, modifying, and documenting controls for internal evaluations for public reporting requirements. Our special project experience includes feasibility studies, forecasts and projections, and quality of earning reports.

**MANAGED IT SERVICES/CYBERSECURITY:**

Managed IT Services and fixed-cost solutions provide the assurance of predictable IT investment and controlled management overhead. Our customers rely on our expertise for network security, process consulting, and a host of other issues to help them protect their networks and the critical data stored within them.

**VALUATION, FORENSICS, AND LITIGATION SUPPORT:**

Valuation, forensics, and litigation support is a suite of services executed by professionals certified in business valuations and financial forensics. Our experience includes performing these services for acquisitions, wealth planning, shareholder transactions, estate planning, gifting, divorce proceedings, business damages, and forensic accounting and fraud investigations.

**HEALTHCARE CONSULTING SERVICES:**

Healthcare consulting services are performed for physicians and providers with needs that include valuations and financial management, shareholder matters, regulation and compliance, and practice management.

**COMMUNITY SUPPORT**

Crosslin is committed to helping improve the lives and opportunities of those seen and unseen who live in our community. We are an active and contributing member of our community, with team members involved in numerous not-for-profit organizations as volunteers, officers, advisors, and board members. We have been longtime supporters of various not-for-profit organizations and initiatives, constantly encouraging our team members, customers, and colleagues to do their part to give back and help others.
